ANNUAL ANNOUNCEMENT

For the Session of 1884-85.

THE FORTY-SECOND ANNUAL SESSION OF RUSH MEDICAL COLLEGE will commence Tuesday evening, September 23, 1884, and will continue twenty-one weeks. The introductory address will be delivered by Professor Henry M. Lyman.

Instruction in this institution is given by clinical and didactic lectures, practical work in the dissecting room and laboratories, and by repeated oral examinations.

THREE YEARS' COURSE.

The Faculty desire that as many as possible of the matriculates of this institution shall pursue their studies in the College during three winter and three spring terms. To encourage this more extended curriculum of College study, final examinations in descriptive anatomy, physiology, chemistry, materia medica, and therapeutics, are open to three years' students at the end of the second winter session.

To each graduate who has studied, as above recommended, three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed by the Faculty of the College. All who intend to pursue this course are requested to signify such intention at the time of matriculation.

COURSE OF STUDY.

Students of the College and those who are pursuing their studies elsewhere with the intention of completing their collegiate course at this institution, are urged to follow the schedule of lectures and studies presented below.

The daily order of lectures and clinics at the hospitals and dispensaries will be arranged, as far as possible, in accordance

with this schedule, not only to accommodate junior students, but also advanced students and practitioners who desire to review their studies.

As the Spring Course has become a most important addition to the College work, the period of study required for graduation is divided into six terms. The following schedule of studies has been adapted to the wants and convenience of students during each period of their progress, whether they are in the College or preparing to enter.

There is reason to believe that it is of far greater advantage to the student, during his collegiate course, to study and carefully review a single text-book in each department of medicine, than cursorily to read several. Students are, therefore, recommended to confine their reading to those text-books, and those portions of the same, designated in this schedule as suitable for each term respectively.

TEXT-BOOKS FOR STUDY.

Wilson's (1880) or Gray's Anatomy. Heath's Dissector. Foster's Physiology. Attfield's Chemistry. Bristowe's Practice of Medicine. Druitt's Surgery, for beginners; Gross' or Erichsen's, for advanced students. Byford's Obstetrics. Byford's Diseases of Women. The National Dispensary. Green's Pathology. Williams' or Carter's Diseases of the Eye. Satterthwaite on Histology. Day on Diseases of Children. Flint's Clinical Medicine. Hyde's Dermatology. Wilson's Hygiene.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule and to use the above-named text-books.

SCHEDULE OF STUDIES.

First Term—Spring.

LECTURES:—*Anatomy*—Cells, Fibers, Membranes, Viscera, and Long Bones. *Physiology*—Blood, Circulation, Respiration. *Inorganic Chemistry*.

Dissection of the Viscera; study of the Long Bones. Surgical Clinics at the College, Hospital and Dispensary.

Second Term—Winter.

LECTURES:—*General Anatomy—Materia Medica—Physiology—Alimentation, Digestion, Absorption. Inorganic Chemistry, with Laboratory work. Surgery—Ulceration and Suppuration, and their results.*

Surgical Clinics. Dissection of the external soft parts. Study of the Bones. Practice of Auscultation and Percussion of the Normal Chest and Abdomen.

Third Term—Spring.

LECTURES:—*General Anatomy—Bones—External soft parts. Chemistry—Laboratory work—Analysis. Urinalysis. Physiology—Secretion, Nutrition, Movements. Surgery—Surgical Dressings and Appliances. Principles and Practice of Medicine—Congestion, Inflammation and its Results, Fever—Materia Medica, Diseases of Children.*

Exercises in Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and of its organs, and of the Fœtus. Medical and Surgical Clinics.

Fourth Term—Winter.

LECTURES:—*General Anatomy—Regional Dissections, Brain and Spinal Column, Histology. Physiology—Nervous System, Reproduction. Organic Chemistry—Laboratory. Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics—Generation, Fœtal Development, Normal Parturition, Dermatology and Venereal Diseases.*

Exercises in bandaging and application of splints. Operations on the Cadaver. Anatomy and Physiology of the Eye and Ear, Laryngology. Exercises in Auscultation and Percussion. Medical and Surgical Clinics. Pathology and Post mortem Examinations, Dental Pathology, Medical Jurisprudence.

Fifth Term—Spring.

LECTURES:—*Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics, Hygiene, Medical Jurisprudence, Genito-Urinary Diseases.*

Regional Dissections, Chemical Laboratory Work, Toxicology and Special Researches.

Clinics, general and special ; Diseases of Women and Children. Pathology and Post mortem Examinations.

Sixth Term—Winter.

All Lectures and Clinics ; Regional Dissections ; Post-mortem Examinations. General Review.

Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year especially to the practical branches and to clinics.

PRACTICAL CHEMISTRY.

The College is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines will give a special course in practical chemistry, devoting to the work three afternoons of each week. The course will include a series of experiments in qualitative analysis, urinalysis and toxicology. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in practical chemistry has been made one of the requirements for graduation in this College, students will find the spring term a most convenient time for the pursuit of this study.

PRACTICAL ANATOMY.

The best advantages are afforded for the practical study of anatomy, including osteology. Material in abundance is provided. The most recent and approved means of illustration by the calcium light will be used.

PRACTICAL PHYSIOLOGY.

The Physiological Laboratory is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses.

INSTRUCTION IN DENTISTRY.

The Faculty has introduced into this institution a course of instruction in Dental Surgery. It must be distinctly understood that instruction will only be given in the theoretical prin-

ciples necessary for comprehension of the diseases of the teeth and their treatment. Clinical instruction in dental diseases will be taught in the dental department of the Central Dispensary, in the College building. The art of dental manipulation and the clinical treatment of diseases of the teeth are taught by actual demonstration at the Chicago Dental Infirmary, which is a dental college and gives a complete course in dentistry and confers the degree of D. D. S.

CLINICAL INSTRUCTION IN THE COLLEGE BUILDING.

Medicine and Surgery.

TWO SURGICAL CLINICS will be given by Professor Gunn each week, one on Tuesday and one on Saturday; a clinic on DISEASES OF THE CHEST by Professor Ross, every Wednesday; one on the DISEASES OF THE NERVOUS SYSTEM, by Professor Lyman, every Thursday; a MEDICAL CLINIC by Professor Bridge, every Monday; and one on DISEASES OF THE THROAT AND NARES, by Professor Ingals—all continuing throughout the year.

Diseases of Children.

Professor Miller, aided by Adjunct Professor Knox, will also give before the entire class in the amphitheater, one special clinic, each week throughout the year, on DISEASES OF CHILDREN.

Gynæcology.

Professors Etheridge and Nelson and Dr. Adolphus, will hold a daily clinic in the College building, for the special instruction of the graduating class in CLINICAL GYNÆCOLOGY.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

In addition to these daily clinics, before small sections of the graduating class, Professor Nelson will give each Wednesday a public clinic, when the most interesting cases will be presented.

Skin and Venereal Diseases.

Professor Hyde will give a clinic on SKIN AND VENEREAL DISEASES at 3 P. M. of every Monday throughout the year, in the upper amphitheater of the building. The extensive collection of plates and photographs, lately purchased by the College, has been arranged in cabinets, on the same floor and adjacent to the amphitheater, with special view to the illustration of this department.

Diseases of the Eye and Ear.

Professor Holmes, with the assistance of Dr. W. T. Montgomery, will give at 3 P. M. every Wednesday throughout the year, a clinic, in the amphitheater, on DISEASES OF THE EYE AND EAR.

THE PRESBYTERIAN HOSPITAL.

(Adjoining the College.)

The hospital, contiguous to the college, was completed this year. It has beds for eighty patients, and is one of the most perfectly equipped hospitals in existence.

The following named gentlemen compose its staff:

MEDICAL STAFF.

Consulting Physicians.—J. Adams Allen, M.D., R. C. Hamill, M.D.

Attending Physicians.—Joseph P. Ross, M.D., H. M. Lyman, M.D., Norman Bridge, M.D.

Consulting Surgeons.—R. N. Isham, M.D., R. G. Bogue, M.D.

Attending Surgeons.—Moses Gunn, M.D., C. T. Parkes, M.D., D. W. Graham, M.D., E. W. Whitney, M.D.

Consulting Gynecologist.—W. H. Byford, M.D.

Attending Gynecologists.—J. H. Etheridge, M.D., H. P. Merriman, M.D.

Physicians for Diseases of Children and Accoucheurs.—DeLaskie Miller, M.D., J. S. Knox, M.D.

Attending Physicians for Skin Diseases.—J. N. Hyde, M.D., R. D. MacArthur, M.D.

Attending Ophthalmic and Aural Surgeons.—E. L. Holmes, M.D., Lyman Ware, M.D.

Attending Physician for Diseases of the Throat.—John A. Robison, M.D.

Resident Physician.—E. P. Davis, M.D.

THE COUNTY HOSPITAL.

(Opposite the College Building.)

The hospital, standing on a block of twelve acres of land, was erected at a cost of nearly a million dollars.

Two new Pavilions have been erected, which have greatly increased the capacity of this commodious structure.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the room in which all the surgical, medical, and special clinics are held. More than two thousand patients were treated at the hospital during the past year, and hundreds of important surgical operations were performed, of which many were capital amputations.

In the rear of the amphitheatre is the Necropsy Theater, in which are held all the post-mortem examinations of the hospital. Ample opportunities are given for the complete study of the gross as well as of the microscopical appearances produced by disease.

THE ILLINOIS CHARITABLE EYE AND EAR INFIRMARY.

This institution affords the largest facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 2,000 patients received treatment at the Infirmary, and nearly 300 operations were performed.

Regular clinics will be given during each week of the session by Drs. Holmes, Hotz, Ware, Montgomery, Schæfer and Bishop.

THE CENTRAL FREE DISPENSARY.

Excellent opportunities are offered to students and practitioners, for clinical instruction at the Central Free Dispensary, which occupies the first floor of the College building. Nearly 20,000 patients received treatment in this Dispensary during the past year. Patients are classified according to their diseases. A wide field is here afforded for the study of specialties.

The prescribing hours are from 2 to 5 P. M., of each day, and by a system of admission cards students are assured of the

opportunity of attending in regular order and witnessing the examination and treatment of cases in every department of the Dispensary.

DISEASES OF THE TEETH AND MOUTH.

Professor Brophy and Dr. Talbot will give weekly clinics in this department of the Dispensary.

A large number of cases are treated at these clinics, which are of no less interest and practical importance to the student of medicine and surgery than to the dentist.

HOSPITAL INTERNES.

Positions of Interne in the Cook County, the Michael Reese, and the St. Luke's Hospitals, and the Illinois Charitable Eye and Ear Infirmary, are open each spring to students who have graduated and pass a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging, and acquire an extensive experience in every department of practical medicine and surgery.

SPRING COURSE.

The Faculty direct special attention to the great advantages offered by the Spring Course. This begins the 24th day of February, at 8 A. M., and continues sixteen weeks. It consists of lectures and recitations at the College, practical work in the laboratories and dissecting-room, and clinical instruction in the hospitals and dispensaries.

During the last week of each term the students will be examined, and will receive certificates of attendance and grade of examination. The grade will indicate the average standing in all the departments attended. Students who prefer it, may include only a part of the branches taught, according to the schedule of studies above presented, and be relieved from examinations in other departments. In the studies taken, a correspondingly higher standing will be demanded for a given grade.

This course cannot be considered as a "*course of lectures*," in the requirements for graduation.

It is a source of satisfaction to the Faculty, as it must be to all friends of the College, that so many young men are impressed with the importance of spending two terms each year in their professional study. Nearly 300 students matriculated during the spring session of 1884.

EXAMINATIONS.

Examinations for the degree of Doctor of Medicine are held only once annually, during the last week of the winter session.

Students, however, who will enter the college for at least three full winter terms of study may receive their final examinations in Descriptive Anatomy, Physiology, Chemistry, Materia Medica, and Therapeutics at the close of the second winter term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Students who take the three winter courses and desire to be examined in the elementary branches, as above indicated, will be required to advance one-half of the examination fee. (See *Fees*, page 14.)

GRADUATION.

The following are the requirements for the degree of Doctor of Medicine:

1st. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, with such primary education as is clearly requisite for a proper standing with the public and the profession.

2d. He must have pursued the study of medicine three years, and have attended at least two full courses of lectures, not delivered in one twelve month, of which the first one may have been in some other recognized medical college, but the last must have been in this institution. The lectures of the spring term cannot be considered as a "*course of lectures*" in this requirement.

3d. He must have received clinical instruction during at least two college terms.

4th. He must have pursued the study of Practical Anatomy, under the direction of the Demonstrator, and to the extent of having dissected each region of the body.

5th. He must have taken one course in Practical Chemistry, under the direction of the Professor of Chemistry.

6th. He must notify the Secretary of the Faculty of his intention to become a candidate, depositing the amount of the examination fee with the Treasurer, on or before the 20th day of January.

7th. Every candidate must undergo a full and satisfactory written or oral examination on each branch taught in the College.

FEES FOR THE REGULAR WINTER COURSE.

| | |
|---------------------------------------------------------------------------------------|--------|
| MATRICULATION FEE (GOOD TILL THE FOLLOWING MARCH) | \$5.00 |
| LECTURE FEES FOR THE COURSE..... | 75.00 |
| ADMISSION TO THE DISSECTING-ROOM TILL THE FOLLOWING MARCH—MATERIAL AT COST PRICE..... | 5.00 |
| ADMISSION TICKETS ARE ISSUED ONLY TO HOLDERS OF THE GENERAL TICKET. | |
| PRACTICAL CHEMISTRY—CHEMICALS AT COST PRICE..... | 5.00 |
| FINAL EXAMINATION—FEE NOT RETURNABLE..... | 30.00 |

Three years students, examined at the end of their second winter, must advance one-half of this fee.

There is no fee for graduation. When fully qualified, the candidate is entitled to the degree and the diploma in testimony thereof.

From Alumni of this college, and from its students who have taken and paid for two full courses of lectures, the Matriculation Fee only (\$5.00) will be required. From alumni of other recognized medical colleges, the Matriculation Fee and one-half Lecture Fee will be required.

FEES FOR THE ANNUAL SPRING COURSE.

| | |
|----------------------------------------------------------------------------------|--------|
| MATRICULATION FEE (GOOD TILL THE FOLLOWING MARCH) | \$5.00 |
| LECTURE TICKETS..... | 20.00 |
| THIS AMOUNT WILL BE DEDUCTED FROM THE FEES OF THE NEXT FOLLOWING WINTER SESSION. | |

GRADUATES OF THE COLLEGE ARE ADMITTED ON PAYMENT OF THE MATRICULATION FEE ONLY ; GRADUATES OF OTHER REGULAR MEDICAL COLLEGES ON PAYMENT OF MATRICULATION FEE AND TEN DOLLARS.

| | |
|-------------------------------------------------------------------------------------------------------|------|
| FEE FOR PRACTICAL CHEMISTRY (STUDENTS WILL ALSO PAY COST PRICE FOR CHEMICALS USED)..... | 5.00 |
| ADMISSION TO THE DISSECTING-ROOM—MATERIAL AT COST PRICE..... | 5.00 |
| TICKETS FOR THE COOK COUNTY HOSPITAL, AND FOR THE EYE AND EAR INFIRMARY, GOOD FOR ONE YEAR, EACH..... | 5.00 |

DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the College, from the Treasurer, Professor GUNN, or from Mr. FRANK J. GOULD, College Clerk.

Students may select their seats in the lecture rooms when they take their tickets, or the Treasurer will select seats for them, on receipt of the matriculation fee, previous to the opening of the session ; but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited and assigned to students who are present to occupy them.

The College Clerk may be seen in the College building, and will aid in obtaining boarding-places, rooms, etc.

Students receive their mail at the College building twice daily.

For further information address the Secretary, Professor J. H. ETHERIDGE, No. 1634 Michigan avenue.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board, \$2.50 to \$4.00 weekly.

TEXT BOOKS.

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others, are recommended :

- *Chemistry*.—Attfield.
- *Anatomy*.—Quain, Wilson (1880), Gray, Heath's Dissector.
- *Physiology*.—Foster, Carpenter.
- *Materia Medica and Therapeutics*.—The National Dispensatory, Ringer, Binz.
- *Medical Jurisprudence*.—Elwell, Taylor, Beck, Casper.
- *Obstetrics*.—Playfair, Cazeaux.
- *Diseases of Women*.—Byford, Barnes.
- *Diseases of Children*.—Smith, Day.
- *Surgery and Surgical Pathology*.—For first course students, Druitt.—For advanced students, Gross, Erichsen, Holmes, Paget.
- *Practice of Medicine*.—Flint, Bristowe, Watson.
- *Nervous Diseases*.—Rosenthal, Bramwell, Ross.
- *Pathology*.—Rindfleisch, Billroth.
- *Clinical Medicine*.—Bennett, Trousseau.
- *Diseases of the Heart*.—Flint, Walsh.
- *Diseases of the Lungs*.—Walsh, Fuller.
- *Physical Diagnosis*.—Ingals.
- *Surgical Anatomy*.—Maclise, Godlee.
- *Microscopical Anatomy*.—Stricker, Satterthwaite, Schaefer.
- *Ophthalmology*.—Williams, Wells, Stellwag, Carter.
- *Otology*.—Roosa, Burnett, Buck.
- *Dermatology*.—Hyde.
- *Hygiene*.—Buck, Parkes, Wilson.

PRELIMINARY EXAMINATIONS.

In accordance with the announcement heretofore made, a preliminary examination will be required hereafter as a condition of admission to the regular winter course of lectures.

Gentlemen who are graduates of a literary or scientific college, academy, or high school, or who have passed the entrance examination to a literary college in good standing ; who have a county or State teacher's certificate ; graduates in medicine ; previous matriculates of this college ; and students who desire

to pursue a special course of study—other than for the purpose of securing the degree—will be exempt from this examination.

The examination will include the writing of a brief paper on a subject to be given ; and an examination in the elementary principles of physics* and mathematics as taught in the public schools of the country. The written paper will be a sufficient indication of the student's knowledge of orthography and grammar, as well as of the subject given.

Students may take this examination either at the beginning or end of the spring term, or at the beginning of the regular winter session.

Gentlemen are advised, before coming to the College, to acquire the documentary evidence of their preliminary education, as indicated above, and thus save themselves the necessity of an examination.

Arrangements will be made for holding this examination in parts of the country at a distance from Chicago.

Students who have completed a full course of study equivalent to that required for admission to this College, may, by special arrangement, be admitted on the certificates of their instructors.

It is important to notice that the diplomas of such schools as do not require an examination preliminary to entrance, are not accepted as qualifying for practice in Illinois.

PRACTITIONER'S COURSE.

The course of instruction for Practitioners will, as usual, occur during the month of April. It will be made up chiefly, as heretofore, of practical and clinical work in the College, Dispensary, Hospital, and Laboratories.

For details see the Announcement for the Practitioner's Course, to be issued by or before Jan. 1st. The Secretary of the College will furnish it on application.

* Or Physics as taught in Fowne's "Chemistry," Steele's "Fourteen Weeks in Natural Philosophy," or any other similar text-book.

GENERAL CATALOGUE.

The following list of Officers, Professors, and Instructors includes the names of all gentlemen who have been connected with Rush Medical College from its organization to the present day.

The changes in the fees from 1843 to 1884 are also given, as an item of interest.
